

Cut and Build the Year

Cut out the 12 cards. Mix them up, then lay them out in order, January first.

 January	 February	 March
 April	 May	 June
 July	 August	 September
 October	 November	 December

Three games to play with these cards

Race the clock – How fast can you put all 12 in order? Try to beat your own time.

Sneaky steal – Lay them in order. Close your eyes while a grown-up hides one. Which is gone?

Next door – Pick a card. Say the month right after it, then the month right before it.
